My name is Danica Luzak. I've been playing rugby for three years now and it has become one of my greatest passions. Not only had rugby helped me grow as an athlete, but it has helped me grow as a person as well. Rugby is my happy place and I dream to continue my athletic career in college. My most recent achievement was making the rugbyPA all-state team, and being able to play with a group of very talented girls. Of course there are always challenges that come along with playing sports. There have been many times

where I was physically and mentally drained and felt like it was impossible to do anything. In those moments, I know that I can push through because rugby is right around the corner. Like I said earlier, rugby is my happy place and it helped me get through some of the roughest points in my life. Hopefully I can pursue my dream of being a college athlete and continue to love and cherish the sport and the people that come with it.

# Jack Osgood

After joining my first club, South Ashford FC U9's, I finished the season top Goalscorer.

My form fell off during the U10 season and last February 12th 2021, I suffered a life threatening condition called diabetic ketoacidosis (DKA) a complication with Diabetes and I was diagnosed with Type1 Diabetes.

I was very poorly for a few months but was determined to get myself fit and healthy and finish off the U10 season.

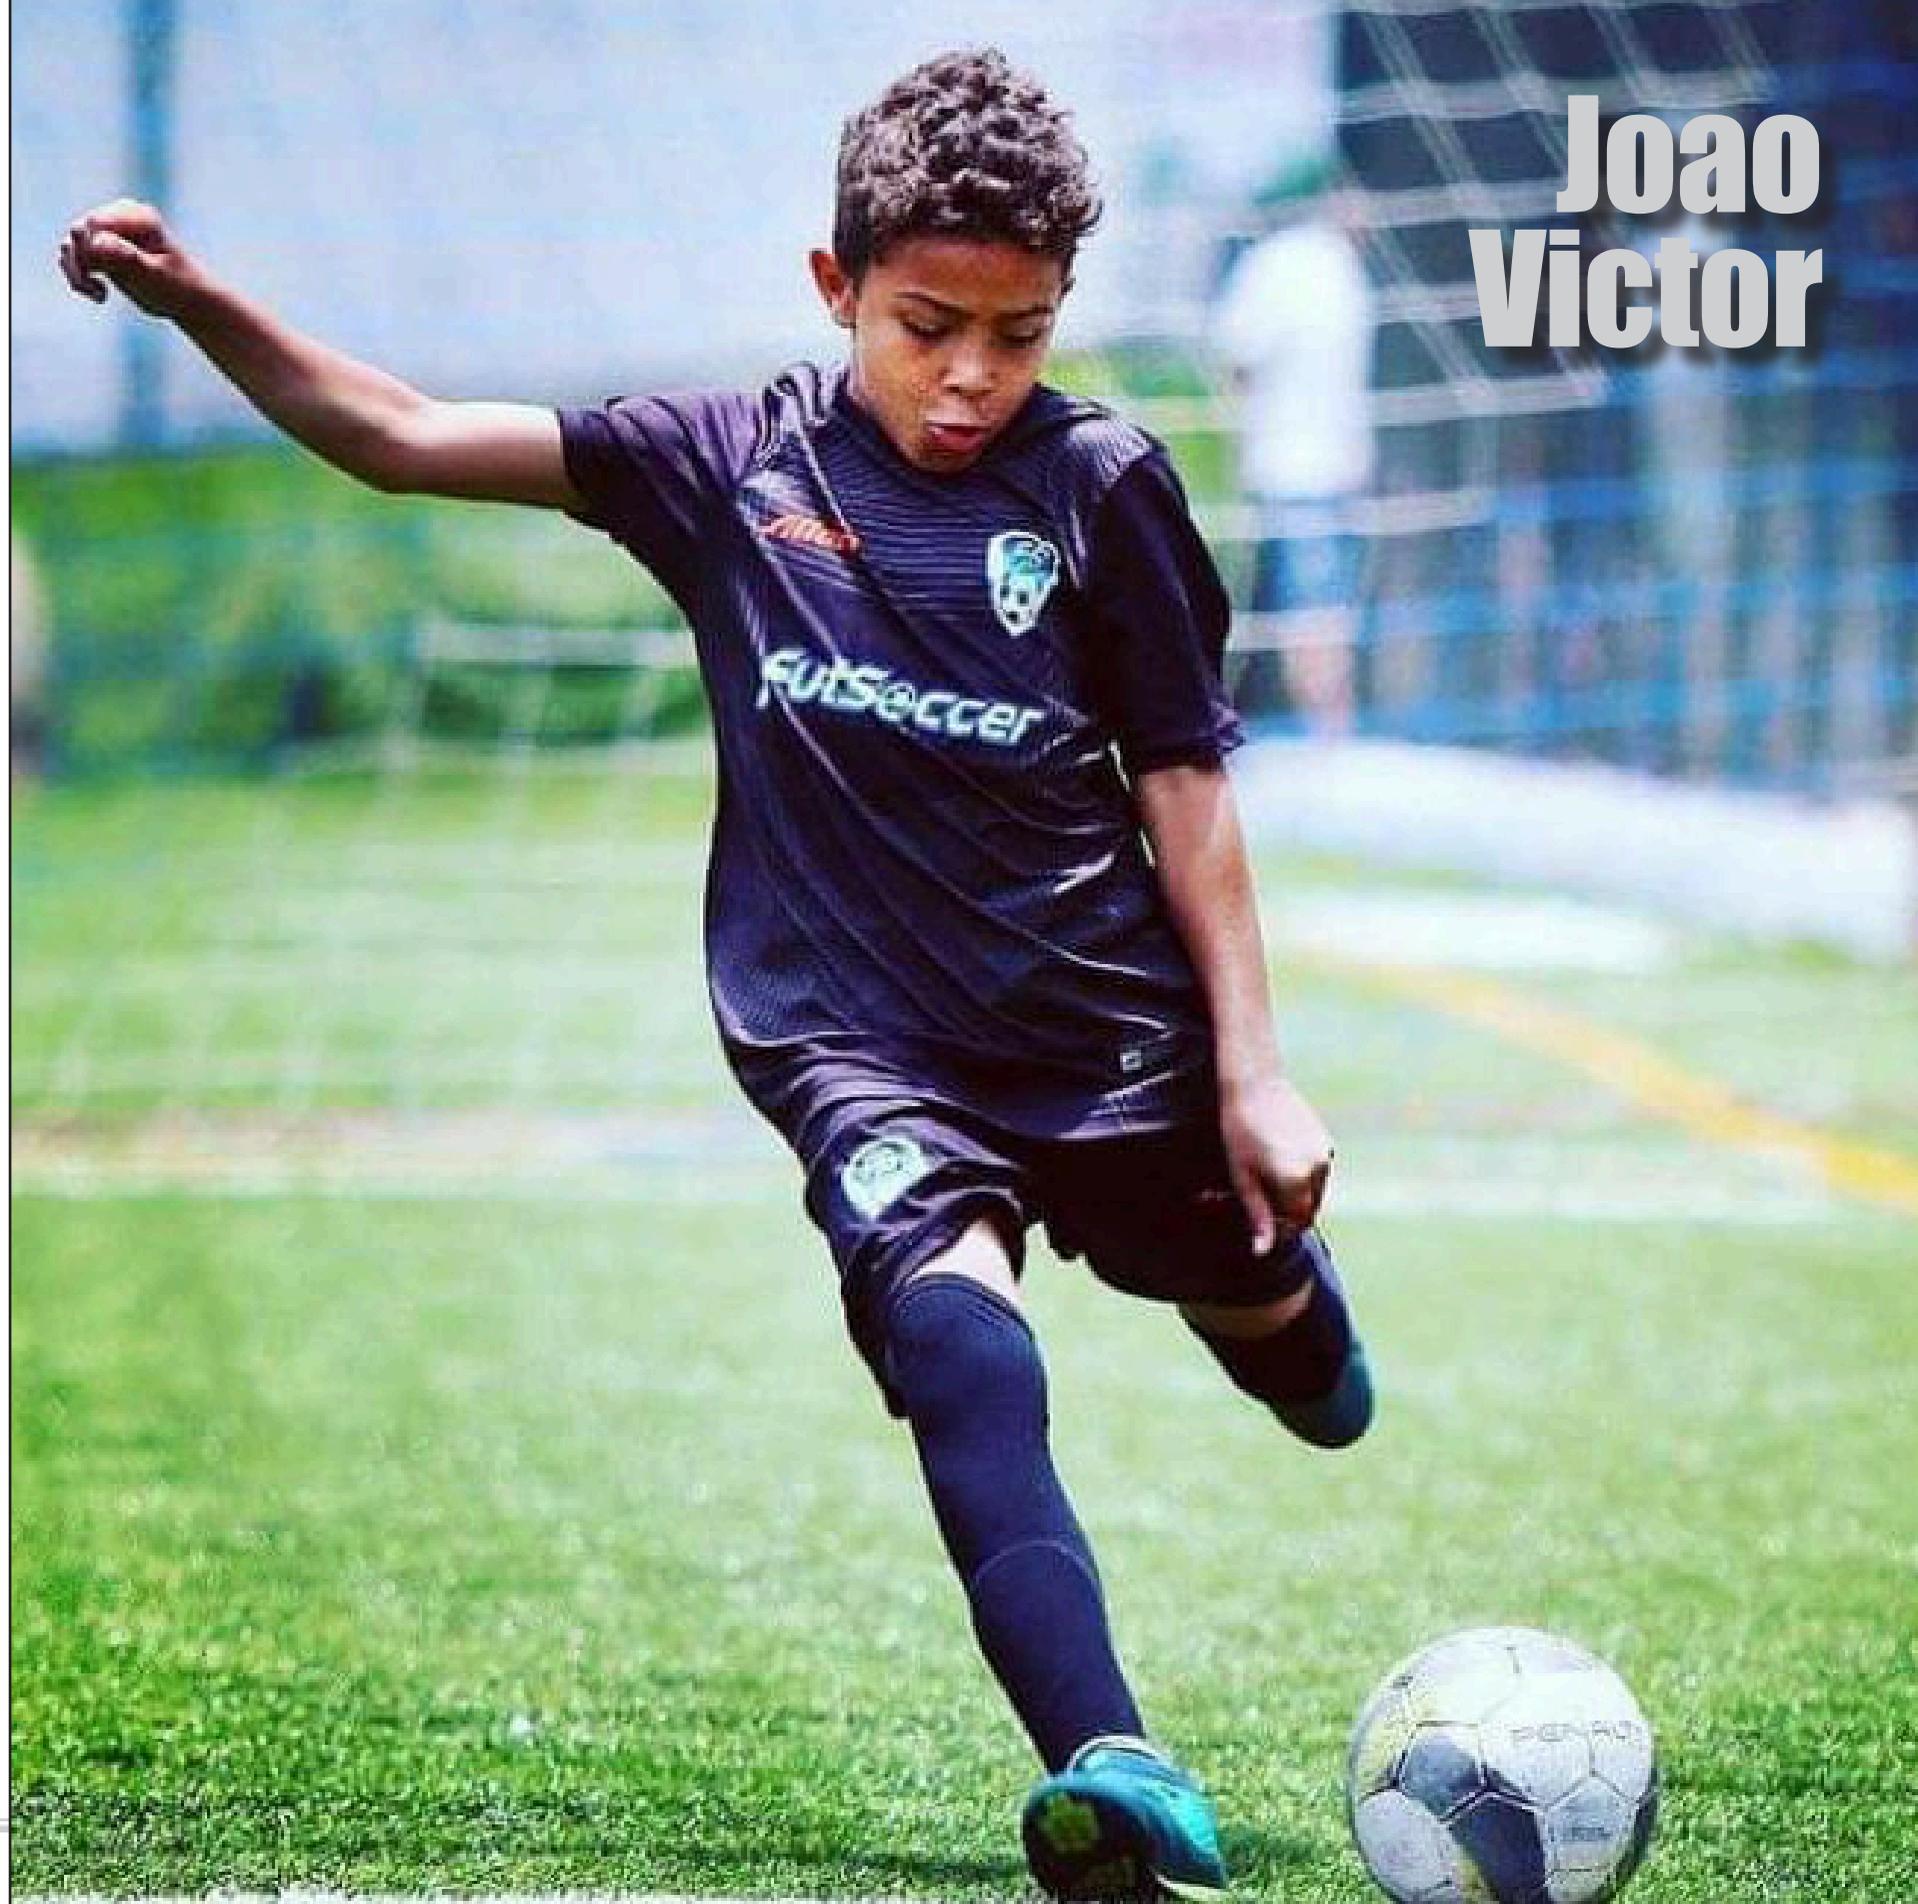

I started the U11 season as an attacking midfielder, scoring 3 goals and 18 assists.

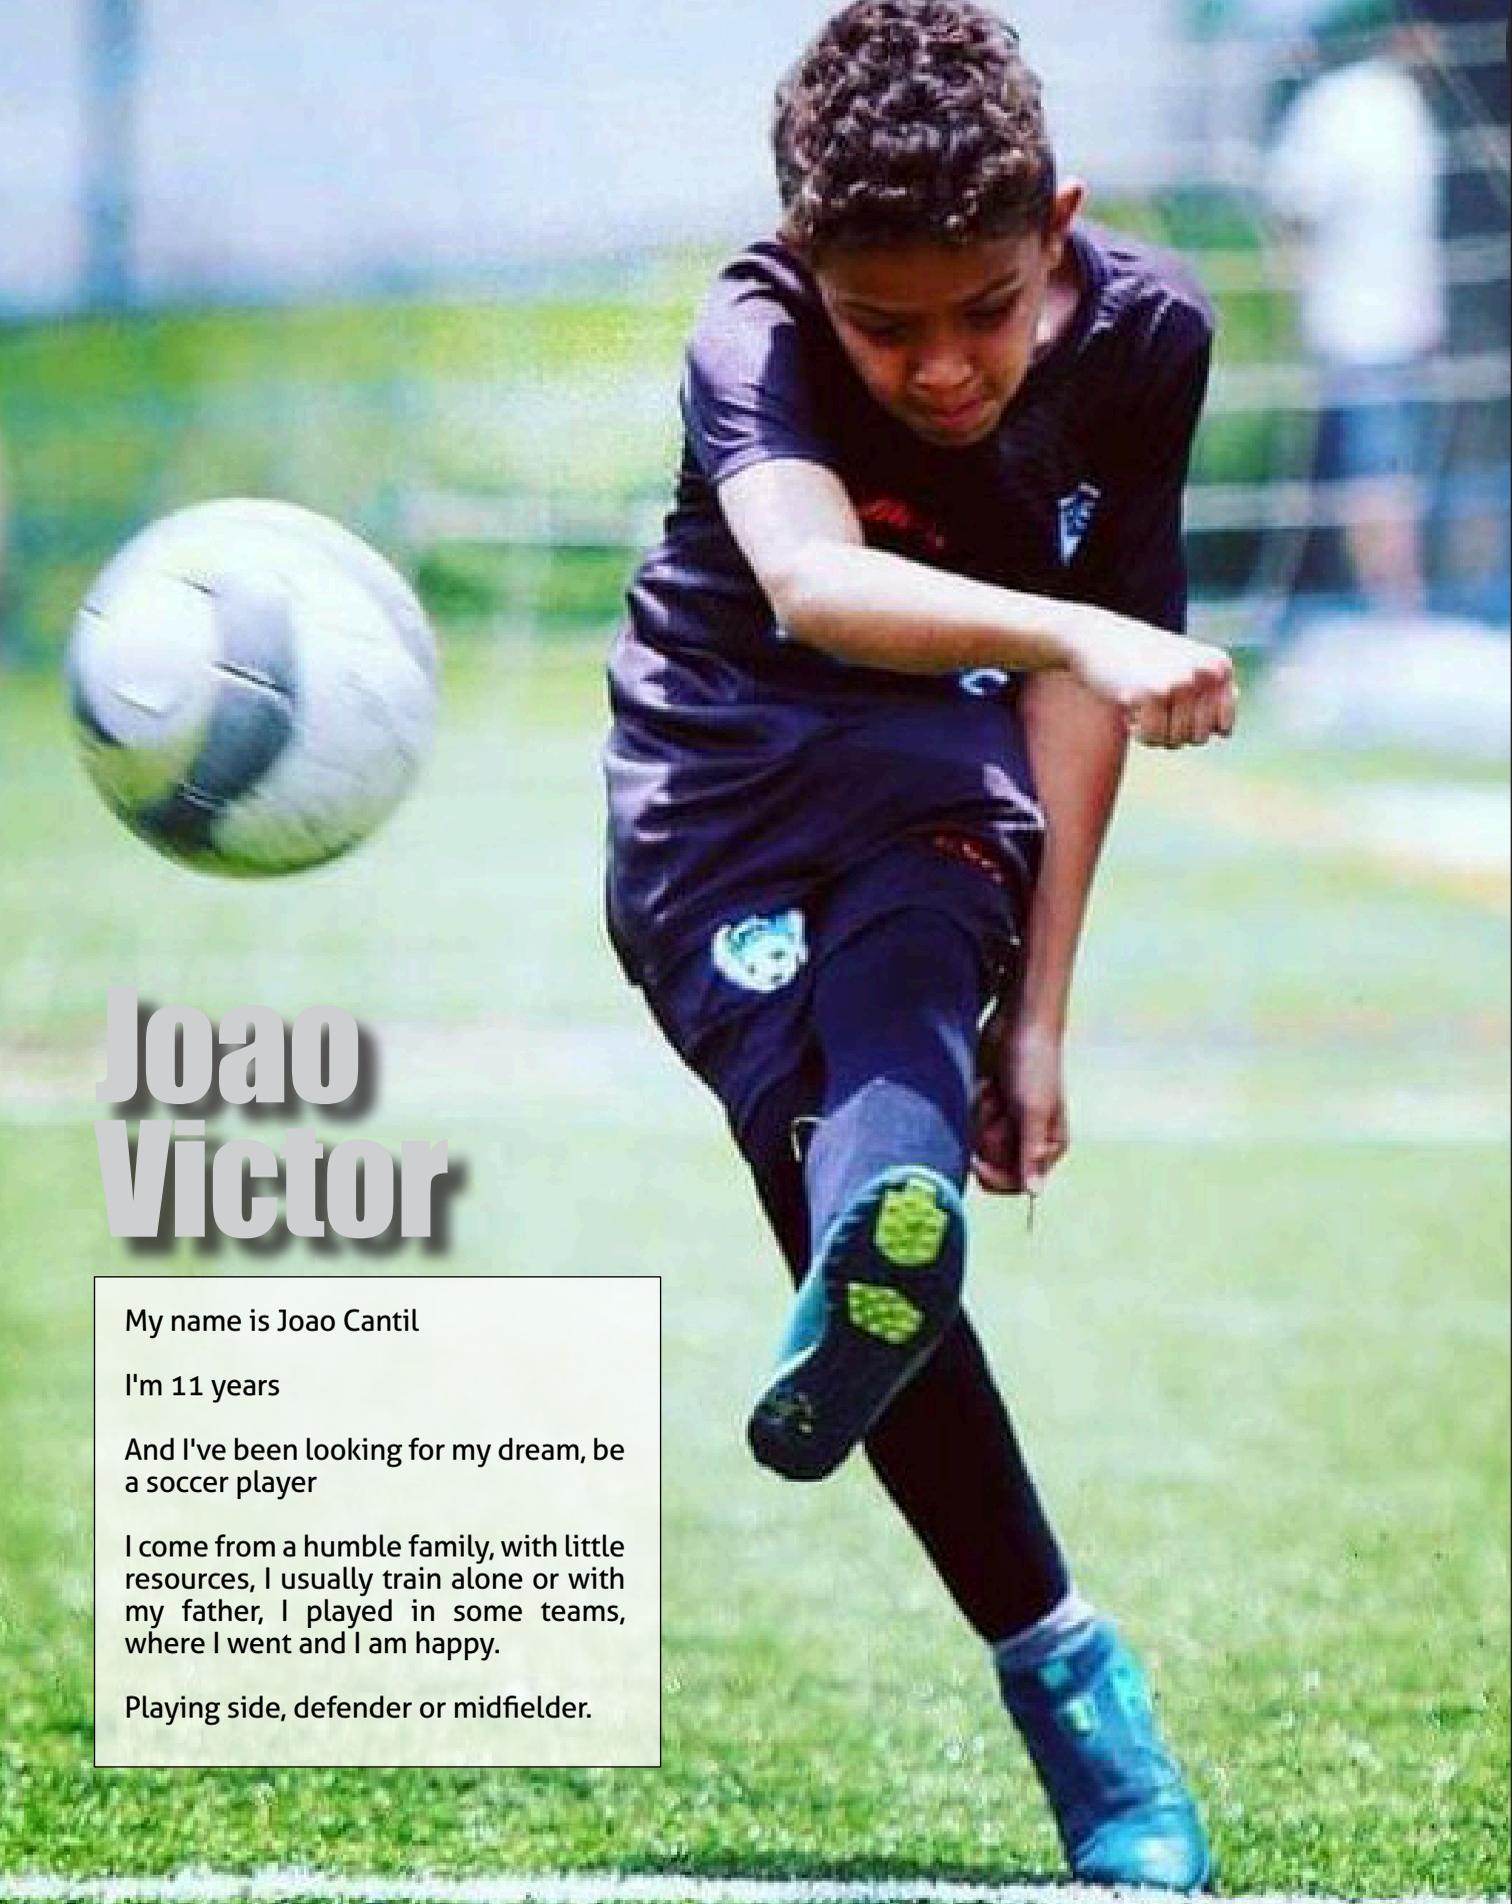

Recently I have found a passion for Goalkeeping and this is now what I want to do.

I have currently played two games in goal and training has been going really well.

My aims for the future now are to stay healthy and hopefully go a long way as a goalkeeper. I would love to do it professionally but I know there is a long road ahead with a lot to learn. I am ready for the challenge and I hope I can help my team to many more victories.
