Rebecca Yang

My name is Alani Haven. I am an outgoing 3 year old that living in South Texas. I have been dancing since before I could walk and my mom enrolled me in dance classes right before I turned 2. I have 3 recitals under my belt and recently earned my spot on a competitive dance team! Dance has brought me so much joy and helped me gain confidence and friends . I can't wait to see what this journey has in store for me!

Rebecca Yang

My name is Rebecca Yang. I am an 8 year old girl from Virginia, US. I started dancing when I was 5 years old. Dance just makes me feel good and it is my biggest passion. I have danced four or five days a week

at Weina Dance Studio for the past two years. I learned Ballet, Lyrics,

Contemporary, Jazz and Acrobatics. I also got to know many wonderful girls there and we became good friends. I am very confident at dance competitions which are challenging for me, but I found deep breathing always helps me stay calm and carry on.

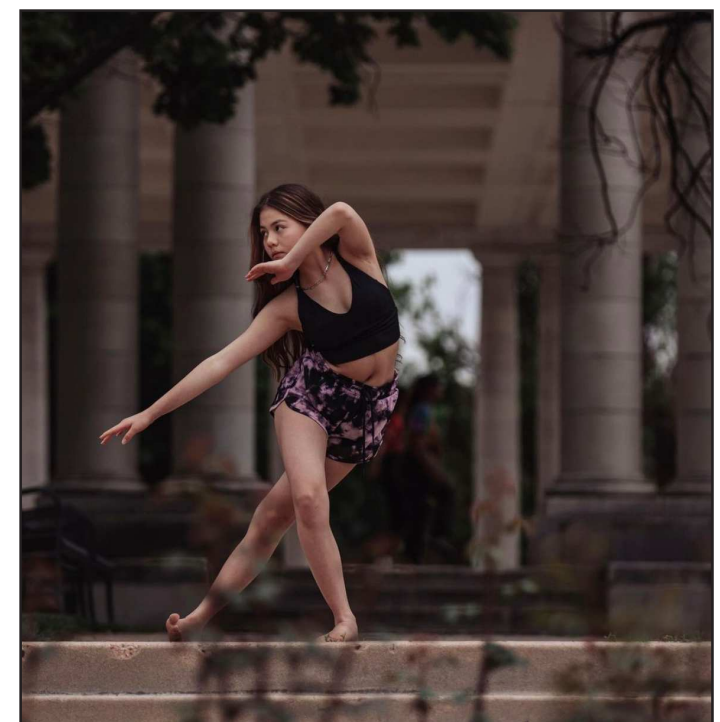

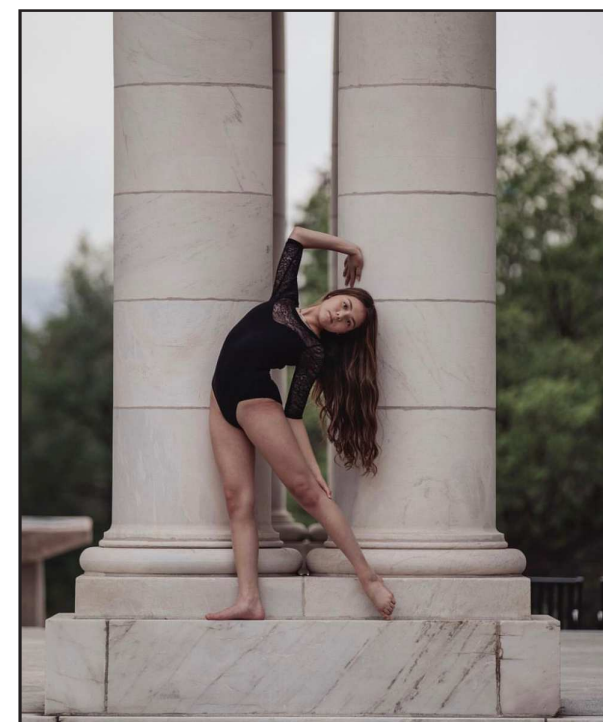

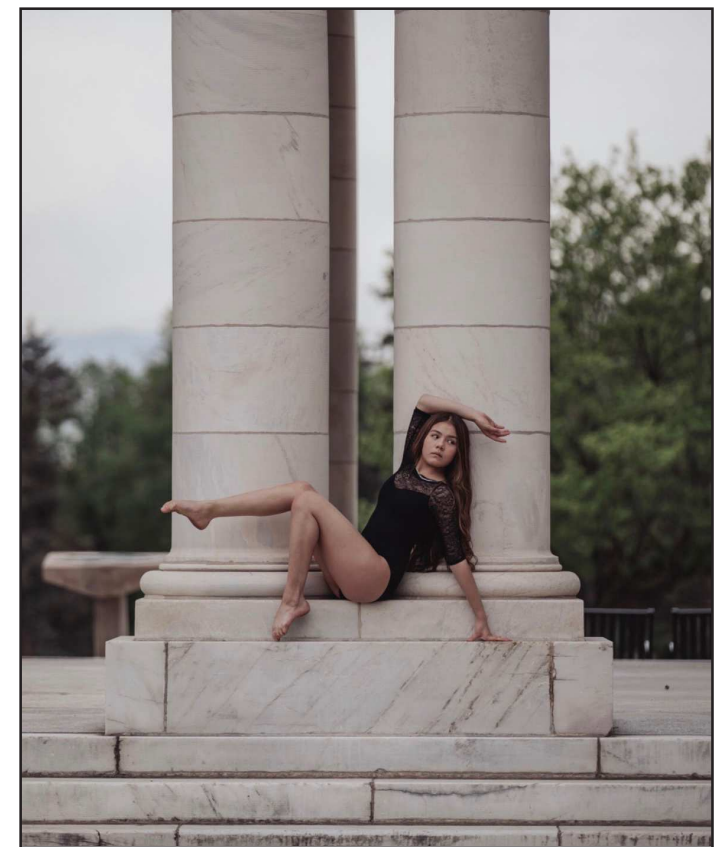

I took part in both solo and group dance competition opportunities. In July 2022, I participated Imagine National Dance Competition and was honored to receive the Petite Miss Imagine Title Champion in the 8 & under intermediate division. And my team also won champions for our two group dances. Super excited.

I believe practice makes it perfect, and

hope my story can be an inspiration for other little girls.

Olivia Aragon

My name is Olivia Aragon, I've been dancing ever since I was a little girl and I really grew to love dance. Dancing is not just a way of movement, but dancing also is a way of life for me. It helps me release all my emotions and feelings and it just helps me get away from reality for some time. Loving dance so much I decided to finally join the competitive team. I saw how good all the dancers where and I kinda felt a little out of place during that time. But that didn't stop me from trying to achieve my goals. I was new to the competitive side of dancing but, I started stretching every

night before I went to bed, I started doing exercises to build up my strength in my free time. I really wanted to be a good dancer so I started practicing every time I had some free time, and this has resulted in me winning the miss teen title, this has resulted in my winning first, second or third at almost all the competitions we go to. All the hard work and practicing I've put into my dancing has finally shown in my dancing, and I was really starting to get successful. I've learned that If you really want something, you'll have to work for it.

My name is Anastasia. I came from Ukraine-Kiev. I always wanted to become a ballerina and therefore studied ballet and dance. But when the war began, all my dreams collapsed. Now I am in Italy, and I continue to dance again. And I want to become a ballerina and I believe into your dreams!

Recently met Paolo Roversi says: "The photographer 'writes the light', the light is the most important thing".

Today, many tools allow to capture this light and to obtain very beautiful images, very easily. Taking pictures is a daily activity performed by millions of people every second.

Photographing is a way of writing light. ... Writing ...

To write is to compose. It is a way to exchange and communicate. It is to tell a story, to put forward and act on your subject. It is also to open up, to go towards others to better meet them, to better know them, to better write who they are.

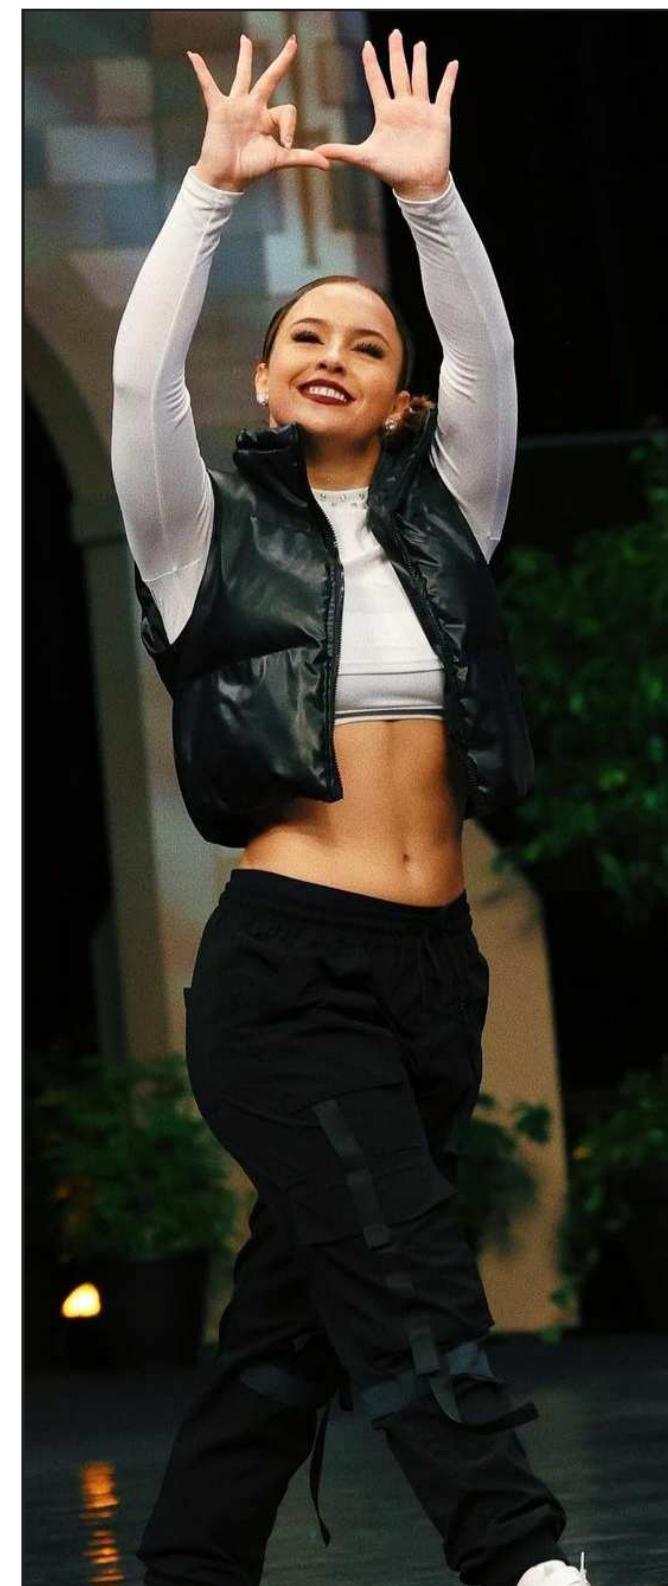

The camera is a simple tool by which the photographer will allow his subject to express himself.

A photograph is a composition, an interaction between the subject, the light, but also the eye and the heart of the photographer. In each of his photographs, the photographer puts his experience, his life and his sensibility. The light speaks to the photographer, and the photographer brings the image to life.

It is well known that words fly and writings remain. The photos, on the other hand, lay down the images that will delight our eyes, touch our hearts, then imprint themselves on us and allow this light to remain in us forever.

Capable

My name is Londyn Williams. I have been dancing since the age of two and at the age of seven I know dance is what I want to continue doing for a living. My goal in life is to teach dance and help people all over the world dance to the beat of their own drums. I'm dream is to choreograph for Beyoncé one day and other famous celebrities. I also want to own my own studio where I can teach kids like myself how to reach for their own goals in life. I have been competing for four years now winning numerous awards and scholarships. I recently just competed for National MVA title with Velocity Dance Company in Las Vegas. During this time I was able to learn from choreographers from the industry, help spread hope and love with a cancer charity event, and even dance as a backup dancers for pop star Ava Max. I know I'm only seven so there is so much I still need to learn and ways I need to grow in this wonderful world of dance.

My dance dreams in the future would be to go to college of dance in my 4th year of school I think that would be a amazing opportunity. Recently I had the opportunity to dance with Dane bates which was such an awesome experience. I also had my end of year dance show which was so much fun a bit stress full with all the quick changes but it was as worth it.

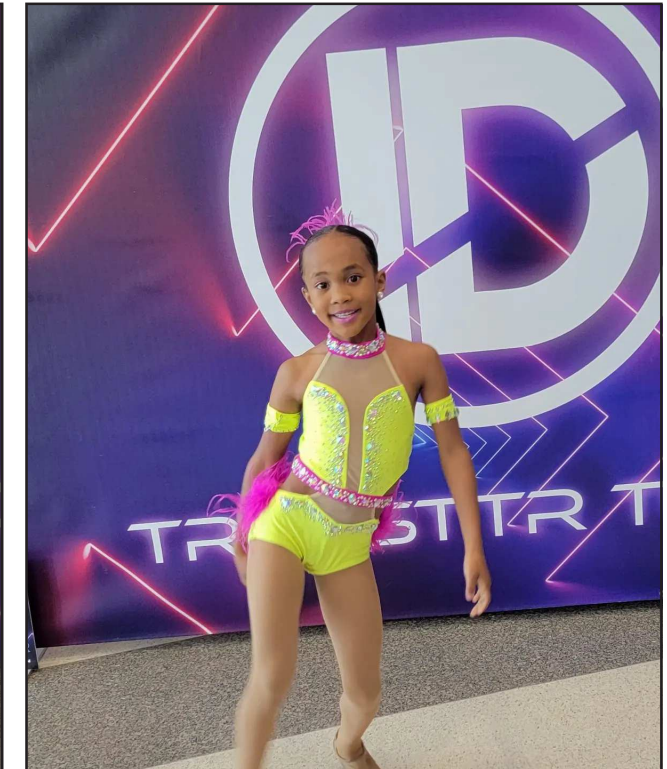

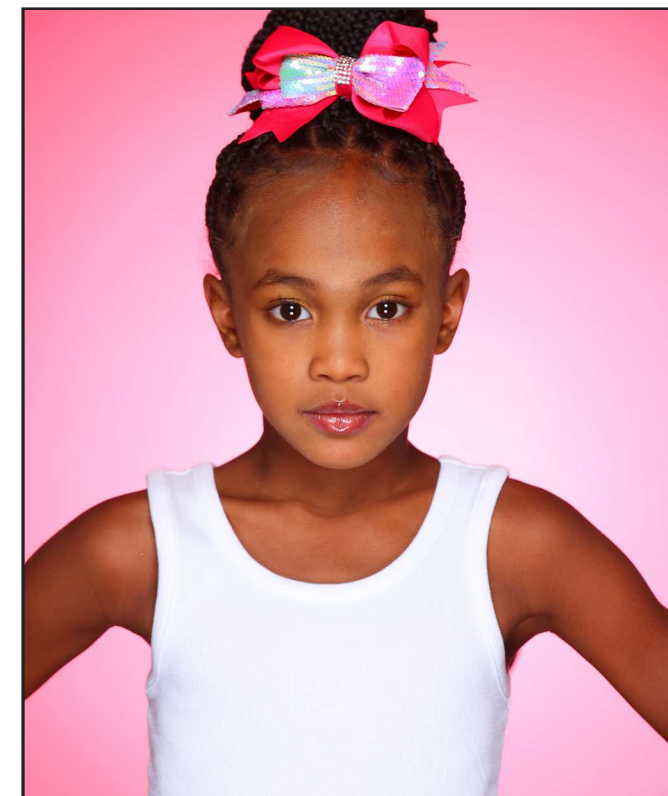

Keianna Holliday

My name is Khloe' Pritchett. I am a dancer at Estreet Dance Academy in Edgewood Maryland. I have been dancing since the age of 2 years old. However, only been in competitive dance for 2 years. I convinced my mother in letting me try out for company dance, because I wanted to try something new and most of all to be challenged in the art of dance. It truly paid off because just recently I became Dancer's Inc. Rising Star Champion. Also, I am in a production play entitled "The Wonky Witch" as one of the lead characters and an ambassador for different brands. My strengths are musical theater, hip-hop, contemporary, Jazz , reading and writing. Which I also love deeply! I am in gifted and talented reading classes and love to write stories. Ballet and Math would be my least favorite but I wouldn't say it is my weakest only because I'm just not interested in it and if I give it my all could become another strength. However, I do study ballet because I have an understanding that ballet is the foundation to all dance, and have a tutor for math so I'm always putting my best foot forward. For this reason, I feel the beginning foundation is very important for my future goals. One of them is to dance on Broadway! I always wanted to dance on a big stage but when we took a family trip to my mother's hometown of Philadelphia. We stopped at the Kimmel Performing Arts Center and that's where my imagination became reality. After that day I started researching on my computer dance schools and theater plays that I could be a part of, and came upon The Broadway Theatre! In addition, I would like to attend college for dance and dance around the world.
