BACK COVER STORY

Paige Chapman

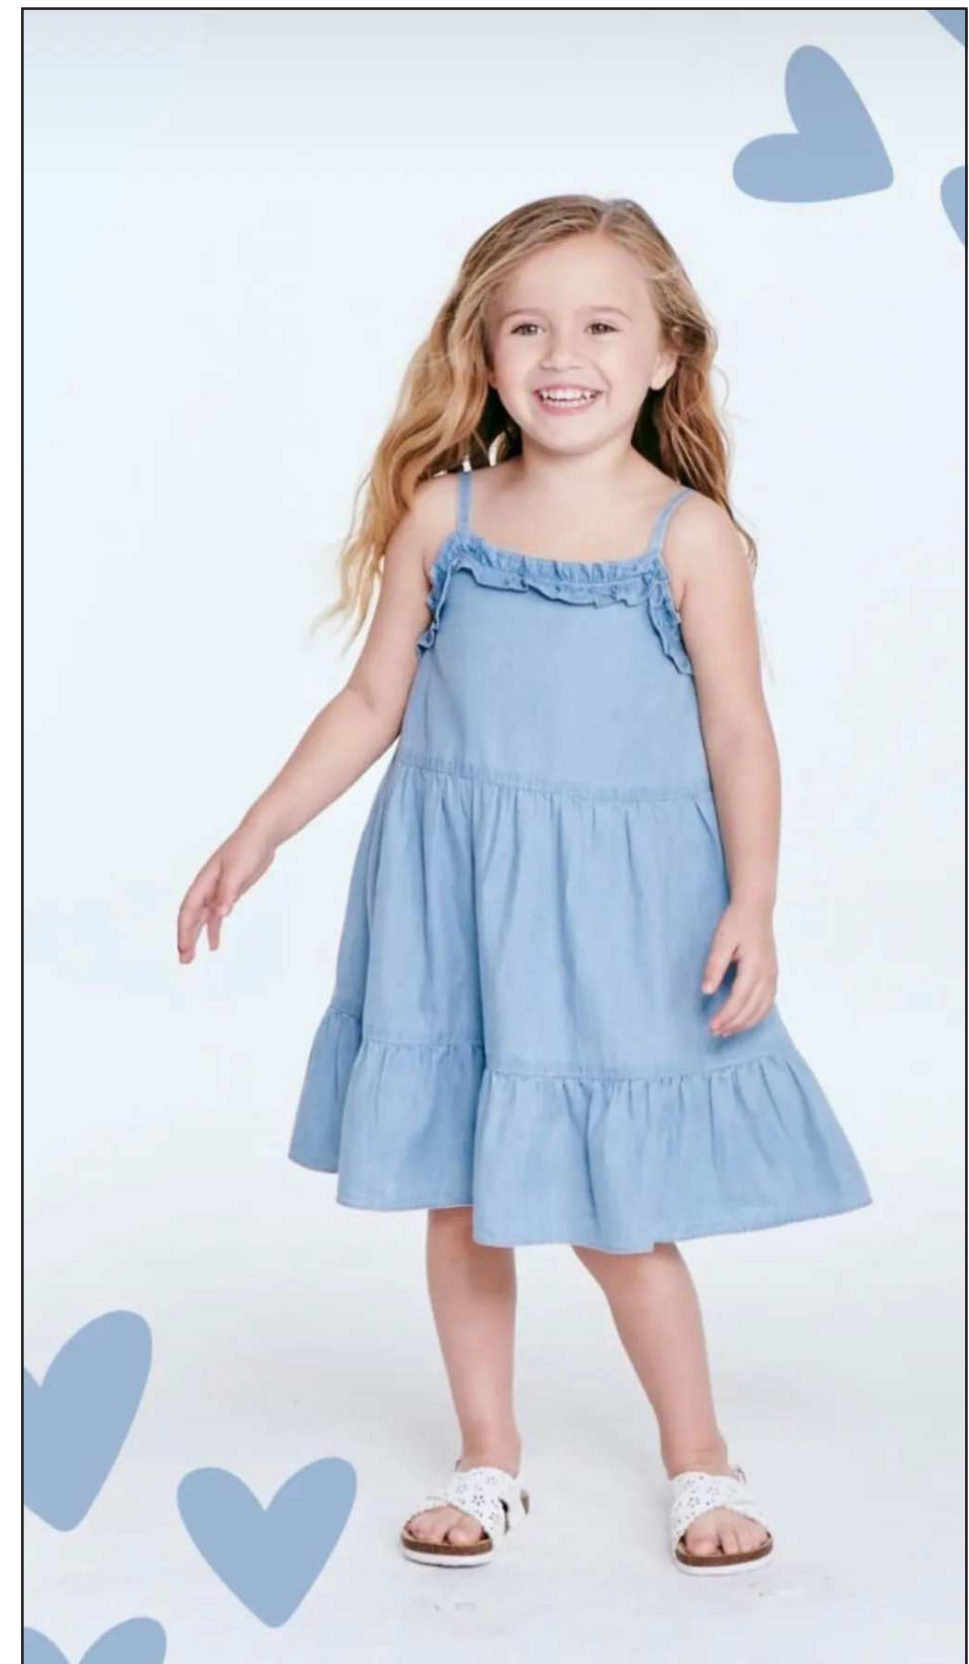

My name is Cailyn-Ann Louise and I am a four year old model. I live in sunny, South Florida and have been modeling since the age of one. I absolutely love taking pictures, and creating repeat clients every time I photograph. I have been internationally published and have had store front coverage from several large brands. I have worked for Bealls, Stride Rite, Spirit Halloween, Children's Place, and several other local brands. I work about once a week taking pictures or videos for clients locally.

I was recently signed in LA and NY. I also had my first series audition for a show in NY and it was a dream come true. I love to sing and dance around the house, and would consider trying to do it as a profession as well.

I love arts and crafts, and science. Creating paintings and step by step experiments, are daily activities for me. Slime is my favorite thing to make. I love doing makeup and getting my makeup done.

Currently I want to be a fire fighter to help the community and save lives. I am kind, smart, funny, sweet, and one big ray of sunshine.

"Life isn't about waiting for the storm to pass. It's about learning to dance in the rain" - Vivian Greene. My name is Paige Chapman, 16, and I'm from phoenix Arizona. My passion has always been dance. Even though I was only 2, I knew after my first dance class that I had found my dream. After that, I decided to dedicate my life to training in order to be the best that I can be. Other than dance, I am also lucky enough to attend Arizona School for the Arts, Where I get to study dance alongside my academics. This school is helping me achieve my dreams. I have accomplished many things such as performing with the Phx Suns dance team, and even co hosting some of the games. In addition, Every December I preform in Ballet Arizona's "The Nutcracker". I have played roles such as party girl and Bon Bon. My motivation for performing is having the chance to inspire those around me. Being given these opportunities is truly amazing,

and I am forever grateful. However, Along with these successes I've also experienced some challenging set backs. For example, When I was 14 I learned that I had stress fractures in both my legs. This was heartbreaking news, and also the moment where I realized if I didn't start taking care of myself I would potentially lose the ability to pursue my dream. Due to this, I was unable to return to dancing for a short time, which was unfortunate and difficult. Yet, if I wanted to reach my goals in the future I would need to rest. It felt like forever, and it was hard but I learned a valuable lesson, your body is the most important tool in dance and you have to take care of it. I'm not sure where the future will take me, but I know dance will be involved. To any dancers reading this: train hard and give it your all, but don't forget to take care of yourself too.

My dream is to one day compete at Worlds as a level 4 elite cheerleader, cheer has become an outlet for me. When I'm having a bad day or stressed out, going to the gym and doing stunts or tumbling helps to clear my head. I have some of the best coaches and they are always so

encouraging. And as I grow up I would love to become a teacher and help change kids lives! I love to help people and I'd love to be part of helping shape future generations of kids. I think that teaching is a great way to connect with kids on another level.

Jessy Tejada

My name is Jessy Tejada I am a model. I have been modeling for a couple of years now. It is something I've always wanted to do and something I love doing. The progress that I have made in modeling took some time and a lot of hard work. One of my greatest achievements was winning the Miss Summer USA contest. To prepare for the contest was challenging since it took a lot of practice. However, it was all worth it when I won and made my family and myself proud. Modeling has always been a great way for me to express myself. My goal is to keep growing my modeling career. As well as to be able to walk the runway with some of the modeling legends.

I am a scientist and photographer living in the Washington DC area. Early on, I was mainly a landscape and wildlife photographer. As an outdoor photographer, I was fortunate enough to travel to many countries on six continents and capture many unique and beautiful moments. In the past two years, I have become passionate about portrait photography capturing the spirit and essence of people. Being a scientist, I love experimenting with my photography whatever the genre.

I was fortunate enough to work with the amazingly talented Leslie Alyssa Sanders. Leslie is 16 years old. She is passionate about acting, singing, and modeling. She aspires to be a model and actress when she grows up and build a career there. She recently moved to the DMV area and hopes to continue pursuing her interests.

During our photo shoot, we kept on discussing and experimenting. We discussed Ideas and she gave me a lot of constructive Input throughout the shoot resulting in the amazing images at the end. We got the images we wanted. She is very comfortable in front of the camera and very easy to work with. I am so glad to have worked with her and looking forward to working with her again in near future.
