My passion is Jujitsu, it has become my life, I do not know what to do without Jujitsu. I am a mini coach in class four days a week from 4:30pm – 5:30pm 4-7YRS, 5:30– 6:30pm for the kids ages 7-11, and from 6:30pm - 8:30pm Monday thru Thursday, Saturday from 11am-12pm and Wrestle on Sundays.

I love to train with my brothers in class we have fun on and off the mats, on the weekends we either head to tournaments or go do other activities like Skyzone, Hiking, or playing Sports. I really enjoy working with the younger kids too in class too, I get to teach them by coaching, and playing with them. I am the youngest in the family and have an older sibling named David, he is 19. There is not much kiddy playing in the house, unless it is with my dog BoBo, he is adopted, and I love him so much.

I do not want to just talk about my achievements, yes, they are amazing, but I would like to share my goals within the Jujitsu community, because competing is not just about winning. Many people only see the medals, belts, and glory behind the win, "if we win", we are truly learning through each other.

You need to understand the growth on the inside of each of us; emotionally, mentally, and spiritually it is a "Learning" process win or lose, we grow.

The whole entire process consists of "Tears and Fear" = Strength, building Confidence, Determination, Compassion, and Pressure this all combined gives us "Courage" to step on the mat to train and compete. Jujitsu helps develop good human beings and brings out the best in us through all aspects of life.

My dream is to take over the Dojo in which my Master has created here in America and help the establishment in Brazil "Empowerment through Jujitsu". I am blessed to have such a wonderful Mentor in my life, and I hope to one day to give as much to the world as my Hero and Master Carlos Henrique, I am thankful for his influence in my life, the friends I have made and for my

@mikey.ledonne.bjj

family!

If it were not for Jujitsu, we would not have opportunity for our Team to compete. I would not have made relationships with other Dojos and their students, who welcome us to train for events when we are in the area. My best friends have been made on the mats, we live in different neighborhoods, attend different schools we

are from different walks of life yet, we have this bond through Jujitsu, where we lift each other up and stand but each other, win or lose, we grow.

The relationships and the life lessons and values you build through Jujitsu is indescribable, once you grasp and embrace the journey, your limits are endless.
