My goals in life I'm on my way to become a nurse in Mississauga my dream is to keep modeling and to inspire others to love themselves and do what they want express who they are. I haven't done lots of achievements I've been in a couple magazines but my favourite achievement is my platinum in archery. My Name is Stephen Sheridan and I produce conceptual fashion and portrait shoots across the UK and occasionally in Europe. One such shoot is based around the concept of Christmas, both as a fashion shoot for the modern day and as a retrospective look at how a Christmas glamour shoot was approached in past decades. The retrospective Glamour shoot was solely a studio-based production bringing together traditional lighting and a little fairy light accent from a battery powered tree ornament set. We wished to soften the feel of the shoot, so brought in some softer satin material to act as an accent style to the sets. Our modern take on the Christmas fashion shoot was different we shot very early in the morning just before sunrise a week before Christmas and used no lighting, just ambient light and what light was available to us via shop windows and street decorations. In this way we sought to bring in the glamour and fashion world together at the best seasonal time of year. My thanks to Clara Taylor who styled the sets herself and was such a talent on set and on location.

My names Faye Delune, and I'm A Professional Model, Promoter and Photographer, (Delune Photography) of over 10+ years, but I'm really just an all around creative person and artist. I make a lot of different forms of content and art. Online Content is my main form of art tho. Honestly my dream is to just make art, and make others happy, but really, If I can spark a reaction of any kind from my art, then I've met my goal. I'm a huge nature lover, who's obsessed with all things astrology and space. so I try my best to incorporate nature and astrology into my work. But really, I just love bringing ideas, and stories to life with my art. Almost every image of either me, or my photography, I try to convey a story within it. "I'm A Blank Canvas, Give Me A Story To Tell." / "Lets Tell A Story." / "A Story Within Each Piece" Are the phrases I Use To Describe My Art. For the past 10 years, I've been studying and learning Photography, Modeling, Promoting and Marketing at The Professional Level and really enjoying the artistic aspect of it all. In 10 years, as a model, photographer, and Promoter, I have had the honor of being featured in/on countless of Magazines, Runways, Commercials, Editorials, Catalogs, Websites, Social Medias, and more! I have also worked with several Brands, Companies, Businesses, Artists, Designers, Bands, and more! Through the years, I've had the pleasure of meeting a lot of very cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. People leave impacts on you, and this job of mine, regardless of if I'm the model, photographer or promoter, it allows me to meet lots of people, who usually leave impacts on me and vice versa. I love making art, and love showing it off. I hope you enjoy my work, and I welcome you to my world. ~ Faye Delune

ensorship. I also look forward to getting more into cosplay and expressing my nerdy side through modeling as well. I have been honored to meet and work with so many talented people and look forward to continuing to work with them and meet even more!

Modeling is just one of the many artistic expressions that I enjoy in life, others being music and drawing! I started five years ago in my mid-twenties, having finally listened to the many suggestions that I should give it a try, and I immediately loved it. My husband was the one who really helped me start my freelance modeling career and was my biggest supporter even while battling cancer for three years. As heartbreaking as it was to do all I could to help him and feel so powerless in those years, any day with him was a treasure, and modeling definitely always helped me feel more positive. After he passed, I lost one of my accounts and also had a very bad experience with an unprofessional photographer. I almost quit modeling and was having a hard time wanting to even be alive anymore. But a good friend wouldn't let me give up, helped me through my darkest days, and inspired me to be true to myself and keep pursuing art through modeling. I am forever grateful for him, and eventually came to find enjoyment in modeling again, find inspiration for art again, build my confidence back, and even- as much as I didn't think it possible- find love again. That good friend is now my life partner and we recently got each other rings for Christmas! (each surprising the other)

My goal in modeling, first and foremost, is to make art. Whether it's something fantastical, romantic, moody, weird, provoking, or whatever. I work with the photographer to embody their vision and bring it to life. I have learned so much about posing, reading the lighting, and composition, that sometimes photographers have told me I seem to read their minds. I now have a shelf-full of publications and my next goal is to create my own online space where I can share more of content without Instagram
